## **DETAILED ACTION**

### ***Claim Objections***

Claim 7 is objected to because of the following informalities: "at least one of input power level and biasing voltage or biasing current" should correctly be -- at least one of input power level, biasing voltage and biasing current --, see claim 1. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 7-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 7, it is not clear how "the selected power supply units" are charging. Does applicant mean --changing-- instead of "charging"?

### ***Allowable Subject Matter***

Claims 1, 2, 4-6 allowed.

Claims 7-9 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
